KIRUMAMPAKKAM, PUDUCHERRY – 607 403.

MEDICAL CAMP – PANDUR VILLAGE, KALPAKKAM DT, CHENNAI – 27.09.2018

Aarupadai Veedu Medical College & Hospital extends its health care services in conducting Free General Medical Camps with the support of Rotary Club Chennai for the people of Pandur Village.

■■■ FUNDRAISER

Our annual festive Dandiya is upon us!

Flagging off the festive season is RCM's dandiya fundraiser packed with exciting reasons to celebrate!

There is less than a week to go. Remember it's 9th October at Taj Coromandel at 8pm. The well-known 15-member Jupiter Band will set the musical tone for the evening, with foot-tapping festive numbers. Practice classes at Hotel Maris: on 5th -4pm to 7pm; 6th - 4pm to 7pm and 7th October: Sunday -11am to 1pm. Please send in your confirmation to attend

the classes. There will also be garba salsa special dance for those interested and the practice sessions will be at the same time at Maris along with the normal garba classes. As usual, Rtn Anand Rangaswami is going out of his way to take care of us. Let's give him the right numbers so he can make arrangements. Confirmations to be sent to Rtn Archana Sanjay.

Medical Camp at Pandur

Rotary Club Of Madras, as a part of its continuing Community Services to help the needy, organised a Medical Camp in the village of Pandur situated in Kanchipuram district on 27th September 2018.

Pandur had already been chosen as one of the villages where Rotary Club Of Madras, in association with Rotary Club of Smith Mountain Lake, is undertaking a Water and Sanitation Project. Having seen the lifestyle of the residents at close quarters, RCM decided to conduct the Medical Camp there.

When it comes to service, our fellow rotarians always put their hands up and this time too it was no different. Dr.Arul's Uma Eye Clinic, Ms. Anuradha Ganesan's AV Medical College team from Pondicherry and Ms.Shanoo Ravi's KKR ENT clinic

team members all made their way to Pandur.

In addition to this, Rotary Club of Madras Project Directors wanted the villagers to undergo ECG test, which is beyond their reach even in government hospitals. With all these facilities arranged under one roof at the village Elementary School situated on the main road, the response was overwhelming. Around 250 people turned up for the Medical Camp on a working day.

All the members of the medical teams attended to their job in a professional manner, with a personal touch. The fact that Uma Eye Clinic management was ready to conduct eye surgeries for all the 26 people diagnosed with cataract immediately and that too free of cost, went down well with the villagers. The young

volunteers from the village who coordinated with RCM for the smooth conduct of the camp have been assigned to follow it up with the cataract patients and bring them to the hospital.

The camp was a grand success as such can be seen from the following statistics:

- Total No of people who attended the camp: 250
- No of people who had their eyes screened: 114
- No of Cataract diagnosed patients: 26
- No of people for whom glasses prescribed: 30
- No of people referred to hospital for follow up: 25
- No of people who had taken ECG test: 45

New Proposal

The board approved the following proposal for membership of the Rotary club of Madras

S.No	Name	Classification	Proposer
1	Mr. Tarun Seth	Hotels & Hospitality - General Management	Rtn. Venkat Ramani & Rtn. Avali Srinivasan
