

**A huge Ovarian Cyst weighing 6 kg was removed by laparotomy by the
Team of Doctors of Department of Obstetrics & Gynaecology,
Aarupadai Veedu Medical College.**

A 38 years old female, hailing from Erode presented to the Department of Obstetrics & Gynaecology with the complaints of abdominal distension & difficulty in breathing. On Examination, she was diagnosed with huge Ovarian Cyst occupying all the quadrants of Abdomen.

A team of Professors of Obstetrics & Gynaecology, Dr.B.Chakravarthy, Dr.S.Deepa & Anaesthetist, Dr.V.Ezhilrajan performed laparotomy and removed the huge ovarian cyst along with abdominal hysterectomy with bilateral salpingo - Oophorectomy with great expertise.

The ovarian cyst measured 30 x 25 cm and was of 6kg weight. Postoperatively the patient was stable & discharged. Histopathology proved to be borderline mucinous cystadenoma.
