DEPARTMENT OF SURGERY
CLINICAL SOCIETY MEETING – MARCH 2017

The clinical society meeting was conducted on 20-03-2017 in the A Block Lecture Hall for Post Graduates.

Dr. B. Kanchana, M.S., Professor and H.O.D., Department of Surgery AVMC &H, organizing chairman welcomed the gathering. Two cases from Surgery department were discussed.

Cases are presented by Post Graduates:-

1. A Rare Case of Chronic Intussusception without a Lead Point in an Adult
2. Management Strategy for Locally Advanced Carcinoma Breast.

Dr. Sameer I Surgical unit P.G. presented the chronic intussusception case. He said only 5% of cases are reported with chronic intussusceptions in adults. Of this only 5-8% occur with out a lead point and the case is presented for its rarity.

Dr. Sundarrajan final year P.G. talked on the management of locally advanced carcinoma breast. The case he presented was stage IIIA. Which was down staged with the neo adjuvant chemotherapy with 4 cycles followed by modified radical mastectomy since the patient was a partial responder. The remaining 2 cycles were completed post operatively. Now the patient is getting tamoxifen 10 mg bd. After question session from the floor the meeting was concluded with vote of thanks by surgical registrar. Tea was served to the audience.

Faculties from other Departments also participated.
