DEPARTMENT OF GENERAL MEDICINE

VERTICAL & HORIZONTAL TEACHING PROGRAMME - DIABETES MELLITUS (PART– I)

The Department of General Medicine conducted **Vertical & Horizontal Teaching Programme** for the Post Graduates on **24.9.2016 between 10.00am to 1.00pm** at Annapoorani Hall, Aarupadai Veedu Medical college & Hospital.

Diabetes Mellitus (Part–I) was the topic presented. The Course was coordinated by **Dean Dr.P.Anusuya**, and the **HOD of Department of General Medicine, Dr. S.Vithiavathi**. Dr. Anusuya, Dean explained about the importance of Diabetes Mellitus and its role among the present population and the need for the medicos to know more about Diabetes Mellitus. The Post Graduates presented various aspects of Diabetes Mellitus (Part–I) that was essential to improve its understanding. Each presentation was moderated by the Head of the department in regarding to the topic. The faculties from the various departments took special interest to highlight the important points in each presentation and also clarify the doubts that were laid upon. The session was highly interactive and served as a tool to prove the essentials of higher education.

Faculty members from Biochemistry, Physiology, Community Medicine, Pharmacology, Ophthalmology, Cardiology and Nephrology played a greater role in helping the Post Graduates to prepare their presentations. Faculty members from various departments attended the programme. All the Undergraduate and Post graduate students also actively participated in the programme.

The session came to an end with the Post Graduates giving an overall idea of how to approach a patient with Diabetes Mellitus. **Dr. P.Anusuya, Dean** was elated with the presence of filled hall and the interest shown by the faculties and students to fetch more knowledge on Diabetes Mellitus. **Dr. S. Vithiavathi, HOD, General Medicine** thanked the Dean for giving wonderful opportunity to conduct the programme and thanked one and all for attending the programmed and requested all to show the same enthusiasm in attending the **Diabetes Mellitus part-II programme** to be conducted on 14.10.2016.
